

Sports Neuropsychology Society

PRESENTS A LIVE VIRTUAL WEBINAR: Cultural Considerations in Sports Neuropsychology

Presented by:
Sports
Neuropsychology
Action &
Professional
Practice (SNAPP)

FRIDAY, APRIL 5, 2024
3-4 PM EST

Speaker Panel

David Lechuga, PhD, ABPP-RN, ABN, is a Latino/Filipino-American. He maintains a private practice that includes expert witness work with diverse individuals, and is the sports neuropsychologist consultant to several Los Angeles professional teams (LA Kings, LA Galaxy, LAFC, Angel City Football Club, and LA Rugby Club). He is a fellow and founding member of SNS, a Div. 40 Fellow, and past-president of the Hispanic Neuropsychological Society, and the California Psychological Association. Dr. Lechuga founded the neuropsychology division of CPA and is a co-facilitator of the Cultural Neuropsychology Council. He is a volunteer faculty member at UCLA in the Hispanic Center for Neuropsychiatric Excellence.

Sonia Mosch, PhD, ABPP-CN, is a first generation Indian American neuropsychologist who practices in Minneapolis, MN. Her practice includes forensic consulting, neuropsychological assessment of general neurological conditions (e.g., dementia, MS, stroke, movement disorders), and assessment of TBI and concussion. She is the sports neuropsychologist for pro teams in MN including the MN Wild and MN United FC, and is the back up neuropsychologist for the MN Vikings.

Nyaz Didehbani, PhD, is a first generation Iranian American neuropsychologist and an Associate Professor at UT Southwestern Medical Center. She specializes in neuropsychological assessment with a primary interest in examining individuals with sports-related concussion and neurocognitive disorders. She served on the Executive Board of the Sports Neuropsychology Society and as the Chair for the Women in Leadership Committee of the National Academy of Neuropsychology.

Registration Details

<https://sns.wildapricot.org/event-5617844>

\$40 for non-members

\$25 for SNS members

\$15 for non-member students

\$10 for Post docs

Free for SNS student members

No refunds or cancellations

The educational content of the full program is available for 1 CE credit.

Attendance at the full program is required to earn CE credit, partial credit cannot be provided for incomplete attendance.

Learning Objectives

Participants will be able to:

- Discuss cultural aspects of neuropsychological evaluations in sports and their impact on assessment with concussed athletes
- Explain evidence-based solutions that work toward eliminating disparities for minoritized athletes

Target Audience/Instructional Level

This educational curriculum is intended to target an introductory audience of clinicians and researchers including physicians, psychologists, neuropsychologists, athletic trainers, nurses, and physical, occupational, and speech therapists.
